

Name: _____ Date: _____ Period: _____

Science 7

Important Words to Know

1. absolute zero
2. acceleration
3. air resistance
4. amplitude
5. atomic mass
6. atomic number
7. atoms
8. attract
9. chemical change
10. chemical property
11. circuit
12. compound
13. conduction
14. convection
15. density
16. electromagnets
17. element
18. force
19. fossil fuel
20. friction
21. gravity
22. hypothesis
23. ideal machine
24. inertia
25. inference
26. insulation
27. kinetic energy
28. length
29. mass
30. momentum
31. nonrenewable resources
32. observation
33. permanent magnets
34. physical change
35. physical property
36. potential energy
37. radiation
38. reflected
39. refracted
40. renewable resources
41. repel
42. solubility
43. temperature
44. temporary magnets
45. thermal expansion
46. velocity
47. volume
48. wavelength
49. weight
50. work
